Impossible is just a big word thrown around by small men who find it easier to live in the world they've been given than to explore the power they have to change it. Impossible is not a fact. It's an opinion. Impossible is not a declaration. It's a dare. Impossible is potential. Impossible is temporary. Impossible is nothing.

Explosions in the Sky-Snow and Lights

Back when Explosions in the Sky didn't "Sell out" to be predictable, typical crescendo post-rock with no noteworthy qualities. Even though this isn't one of their most highly praised albums, and one of the ones I deemed to be "boring" got a higher rating, I think their first 3 albums far exceed pretty much everything else they did, if I'm recalling correctly.
