The Republic of Ourisio: A semi-isolationist democratic socialist, "muscular" parliamentary republic with hispanophone minorities, conscription and a world-class aerospace and tech industry in the far north. Famous for pioneering powered flight and bad food. Think "Norwayifornia" but more fighter jets and robotic arms.

Nope but that's the closest guess so far(by 2x). Maybe a final due(or two) wouldn't be much harm. I live northeast of Chelmsford but not anywhere further northeast/ as northeast as Colchester and I live somewhere in central Essex.

What if two short-lived quasi-states in 1920s merged as one and made it into 21st century? Because why not?

Please note that not all things about this nation reflect my views.

Actually, a lot of things about this nation contrast with my views.
