Im Gluck, Neu!

very mellow and soothing

we, unlike the bourgeoisie, have nothing to lose and therefore our expression will be the only honest one, our words will be the only challenging ones and our art will be the one revolutionary expression. We need new noise and new voices and new canvases to become something more than the last poets of a useless generation.

This is the type of instrumental music I love. A good epic post-metal and post-rock song (though, I believe that one I posted is more just metal)

Russian Circles is awesome - was listening to the Station album on the way home, love the songs Harper Lewis and Station. But right now, it's:

I'm slowly going through all 4 of their albums on my Spotify playlist, and so far I'm digging what I've heard. I seriously do have way too many Spotify playlists, and I keep gaining more

Listened to the song you posted. Not really my thing. Have never really been a fan of that style of metal. BUT I used to not really care about metal in general, and now that I've found metal I actually LIKE, metal has definitely grown on me. Like Russian Circles for example. There's just certain types of metal that still don't interest me.
