Monkey 1006 was the one who ate 1007's other half after mothman, and died from disease caused by it.

Welcome to Duotona, the rushed nation concept that was made by someone with no understanding of politics! A mixture of many Asian, Polynesian and French cultures (no wonder the English haven't touched us yet), the skies are blue, the government is messier than Einstein's desk and the bees arrive in plenty.

Monkey 1005 was angry. Tomorrow on a Friday, there would be global climate strikes among humans, but the majority of humans behaved like nothing happened and thought about increasing fossil energy consumption even more and they still did all other things that made monkey's life bad, although they had common forefathers with monkeys.

So while he was sitting on a branch of a tree, he knitted nuclear bombs for revenge.

Suddenly it made "boom" and monkey 1005 died....

What happened?

Monkey 1004 was hung for being suspended by a circular rope attached to its neck and suffocating.

Monkey 1003 was a casualty of the Random Chimp Event

#### What this thing is:

A nation obsessed with technology and progress populated by various types of mad and villainous scientists. They're not evil, of course, it's just the aesthetics of it. Well, some of them aren't scientists either - those less academically talented generally find their calling assisting their ~~master~~ employer with their scientific endeavours (hump or other physical deformity not mandatory).

Monkey 1002 investigated the cause of the Random Chimp Event and found that it was somehow caused by, guess who, Monkey 1. He was eventually abducted, never to be seen again

Monkey 994 punched its own ticket... then fell off the train.

Godulan Puppet #2, Rping as technologically advanced tribal society founded by mongols and vikings (and later with multiple other Asian and Native American cultures) motivated by an intrinsic devotion to the spirit of competition. They'll walk softly, talk softly, and make soothing noises as they stab you in the back and take your stuff... unless you're another Caleshan, whereupon they'll only stab you in the back *figuratively*!

Monkey 991 signed up as a volunteer gladiator for a prize of 100,000,000 dollars if he survived on the condition that he will not be allowed to know his competitor. Unfortunately for him, his competitors were 10 aggressive grizzly bears and he only knew this when the battle started. He was then mauled to death by the bears.
