It's the last paragraph in your general overview.

The Reichstag, the lower chamber of the North German Parliament are elected through universal suffrage (which is, in practice, limited to males): each member represents a district (Kreise) by a majority vote. Since 1993, the Reichstag has 427 members.

As I said, mayhap I misread on the matter.

Children are seen as the bedrock of society, and their culture greatly places emphasis on communal child-raising and education.

The Norman noblemen that settled into England during and after the Norman Conquest were banished in 1092 -presumably in a successful rebellion. Hopefully more about this will be revealed later; as it pretty much makes any form of rivalry between England and France (which was primarily over the English claim over the French throne) meaningless after the 1100s.

The nation is a take on Margaret Atwood's The Handmaid's Tale's Republic of Gilead (which the AN misunderstood to be a utopia fantasy rather than the dystopia it is). The country is located in (now destroyed) USA, and was founded by a fundamentalist Christian Church called the Sons of Jacob who established the theocratic republic through a series of democratic backslidings and a military coup.

While Judaism plays a very important role in Shtetan society, with Jews making up 74.2% of the population, most Shtetan Jews aren't particularly devout. According to a 2014 poll, 42% identified as secular with another 25% identifying as "cultural traditionalists", and in another poll in 2009, 65% identified as not religious. State-religious schools are mostly directed towards the Orthodox minority, while a few Orthodox communities have their own private schools that focus almost entirely on religious education.
