Federated Communes of Cygnus X-1

A federation of various leftist Communes in a Sci-fi world, orbiting a beautiful dance of a black hole and a blue star.  
Part ancom, part Democratic Confederalist, some mutualism and a fair bit of fully automated luxury gay space communism. So a united libleft polity in space.

PMT/Early FT - Decopunk. Zitragrad is a crowned republic in a planet somewhere else in the universe. The formerly wartorn nation keeps a facade of normalcy and order while enjoying the societal and cultural decadence that marks the new Roaring Twenties. The paranoid authoritarian government tries its best to uphold order in the face of uncertainty, while its people want nothing more than a breathing space. hmm, should i write a factbook?

All NS stats ARE canon except population (for obvious reasons) and income tax (which, going off government spending as % of GDP, should average 15%)
