Born from the need for a more realistic approach to orbital defense

Most NS Stats and Policies are *somewhat* accurate to how I envision this nation, but please try to judge this nation primarily based on its factbooks.

This is my attempt to write a nation that embodies my political views, but is also played realistically, showcasing both the upsides and downsides of my ideal system. Most factbooks are still an active WIP, so let me know if there's anything you think can be improved upon
