I love when I have 78 artists to go through still and I can't figure out what I want to go through.

I mean seriously brain, there's plenty of options. Just choose one.

Solar Fields-Home

I'm going with more of this. I quite enjoyed this atmospheric electronic music, so might as well work more towards finishing up my last electronic artist (currently) I need to go through.

I think some Mindless Self Indulgence songs do that, as well, because some feel like they flow way too well with the censoring. But they have non-censored versions, too, so it's kind of weird.

Tip for Arcade Fire, just go chronological.

To be fair, I'm struggling to think of many albums at all that beat Funeral. Reflektor is my least favourite of their albums at the moment, but I still think it's great and it'll probably grow on me more

Big ass album, too. 75 minutes long.

I sent my brother the Reflektor song, and he absolutely loved it, and was listening to it constantly. He was an Arcade Fire fan anyway, but he really liked their new song.

I'm surprised how much I'm digging it. When I first heard it I was like "Wut", because it was all disco, but I'm actually quite enjoying that song. Mostly because I knew some of the singles really well from the radio.

They're like a mainstream band who seems to be willing to change their styles around and evolve more so then a lot of people I know on the mainstream music scene (Lady Gaga and Katy Perry. I actually think Katy Perry's new single is worse then she was the last album)
