Never played it. Thought it looked like Rockstar Games did a decent

job at taking the reigns of it, though. They're bullet reactions on enemies looks pretty cool. But we just haven't got it for anything yet.

But I really liked this song on a trailer for it, so I decided to check out the soundtrack the band did.

I assumed you played it since you go through soundtracks of games you've played.

The person who uploaded the video put parts of movies to generally go with what the song is singing about. Panama is green with no deserts. Seems he made the video with what sources he could find on-line.

Songs title "Cipriano Armenteros", It is about a bandit in the early 19 century who in present day Panama is captured byt the Spanish. Has the Spanish troops enter the town with the captured bandit, the people begin to stare and laugh at the bandit who is seriously staring back while thinking of payback to those that laughed. Then the Bandit leaders gang rescue him causing everyone to panic and lock themselves in there homes. They will not even open up for money. Even the chickens would not sing. Te land itself is trembling. Even the Sun hide its rays. Song was a big hit.

They mention Caledonia which is in Panama.

Stupid power was cut off for "not paying the bills" even though my dad never misses power bills. For the 3rd time this year. It is getting really frustrating that it keeps not going through properly.

Not all the time. A lot of the soundtracks I've gone through are of games I haven't played yet.

Got distracted with admiring pictures of my lovely state of Washington, after looking at awesome locations of California.

Example: http://en.wikipedia.org/wiki/Mount_Stuart

Are there any like, "Discuss Awesome Nature Locations" threads on NationStates?
