Sorry for the long wait, but my new nation is still a slow work in progress. Completely new map than this one has.

Things to keep in mind:

- This isn't a single nation, but a whole planet full of many nations. I will usually reference a certain nation when posting.
- The flag being used is just to represent that it is a planet, it is not used at all in the 'canon', as there is no one flag for the planet. Instead I chose to just use an image of the planet.
- I've referenced the prequels 124 times on F7.

Imagine an alternate world where guns made their way to the Americas before Europeans did through a complex series of Polynesian trade networks. Shockingly enough, this nation doesn't represent my views. NS stats are a Spaniard conspiracy to steal your gold.

The formerly wartorn nation keeps a facade of normalcy and order while enjoying the societal and cultural decadence that marks the new Roaring Twenties. The paranoid authoritarian government tries its best to uphold order in the face of uncertainty, while its people want nothing more than a breathing space. We do not use NS Stats. Seriously, they make no sense for this particular nation.

Set in an alternate year 1127, the Nordic Commonwealth is a hegemonic republic ruled by a warrior aristocracy with an economy based on raiding and trade.
