The galactic dictatorship's strength is quickly challenged as Faruk develops dementia and has started forgetting things: the name of the capital, his ministers, his family and even his own name.

I don't feel like playing as the current man so we find new man.

Say hi to our new man! His name is Piotr and he lives in an alternate timeline where Poland was aided by the Soviets during WW2. (OOC: This could have almost happened in real life after fake intelligence* arrived to the USSR that the Germans were gonna invade them and betray the Molotov-Ribbentrop pact)

*It was correct, they just got the year wrong
