man is born in the Pacific union and has pretty normal life. he goes to university, gets a job as a dentist and gets married with a girl named Woman. they have 2 kids, Manderella and Mannus. however, everything changes when the lone star empire declares war on the pacific union. man is conscripted and fights hard for the liberty and equality that the pacificians had so hard built. when he returns to his home, los manglees, his life is ruined. woman, mannus and manderella had died in a bombing raid. disgusted, man enlists into the main political party and runs for the post of the president. eventually, he succeeds and declares the United States of America. he know why he's here for. he's on this world to destroy the scums that killed his family, and to unify the USA once and for all!

Man remembers Bioshock is easily better and changes his mind. He then reverses time to save the life of Man 2 while ending his own.

Old man forgot how to speak in the process. He tries going to a local school to learn ASL but the school not only doesn't offer ASL classes but they also deny him for being too old.
