Alastair isn't actually as heavy as I thought he was going to be; he's only 201 pounds. For someone almost six feet tall, that's only overweight.

Ari, Daughter of Oloughin, is the Caller on the Council, meaning that she gathers the Ghesite leaders together for meetings and presents the agenda for discussion. Her father died early, so she had to motivate the Council with promises of spoils from a raid against the Berghi Empire. The first attempt failed, but the next attempt succeeded, gaining her a fierce reputation. She is under a lot of pressure to maintain that.

There's a lot that can be learned from their Factbooks and I had read it quite a bit, but Hatsunia can be summed up in a way:

"Cody from Alternate History Hub: What if the Soviet Union Japan does not collapse stagnate and invents Anime and Hentai instead of Japan USSR?"

This seems more of a thought than something that I learned from their Factbooks, but considering the theme of why Hatsunia is made, it feels appropriate and Hatsunia feels an antithesis to my nation as both USSR and Japan struggled from technological and economic stagnation that they both struggled to recover.

No...not English again, my stupid ass can't take it. Ahem. The TGR's weather is heavily influenced by the Caspian Sea and is prevalent even in non-coastal (above sea level) heights. It has a fair amount of rainfall as wind sweeps it inland, so much that there is rain in all seasons and vegetation is ever green.

The Grand City of Vale is very dense (370 million over 1800 [presumably square] km = over 170000 people/km²), and has a lot of seaports and airship ports. It has a famous radio tower thousands of feet tall (which was made obsolete by communications satellites), and is surrounded by a 50-meter wall with turret emplacements to defend against the "creatures of Grimm."

The first sound of the future, the society of the future

Japan missed the software revolution. Hatsunia embraced it.

In their reality, China was split between south and north. Hatsunia seems to be quite of a pillar against communism, and directly helps the southern side of China. Also, the countries of Asia seem to cooperate more in this reality.

I have learnt valuable information about politics and the related fields. I feel politically inspired, thank you much.

I bring good news from The North Pacific. A friend of mine was recently invited to a private discord chat with the elite card sellers of The North Pacific and other regions who spoke of cards that are now or will soon become high value to the elite. Some of these are expected to go out of production which would lead to a higher market value. People with this same collection are selling them for thousands of bank, but I will sell it to you fine people for only 122.28. The card collection is in my cards section on my nation page.
