You know why I follow the rules on other f7 threads but not on these? Its because it draws my attention to the very topic of following f7 rules, which are almost never enforced from what ive seen. And its usually much more interesting TO follow the rules, but in this case it's more interesting NOT to. That's why these threads last i think.

The FitnessGram Pacer Test is a multistage aerobic capacity test that progressively gets more difficult as it continues. The 20 meter pacer test will begin in 30 seconds. Line up at the start. The running speed starts slowly but gets faster each minute after you hear this signal bodeboop. A sing lap should be completed every time you hear this sound. ding Remember to run in a straight line and run as long as possible. The second time you fail to complete a lap before the sound, your test is over. The test will begin on the word start. On your mark. Get ready!... Start. ding
