The guy climbing the ladder asked that lady to hold the ladder so he would not fall, but she got distracted with the birds flying outside, which means that the guy will fall. Then all the shelves will fall over them, and break the whole floor to reach the lamps below, starting a fire that will consume everything. But don't worry, because with them some books of arcane knowledge also will burn in the whole mess,

and this will cause them to be reborn as a two-headed octopus, which will wander the countryside capturing humans to sacrifice them in name of the constellation of Gemini, for the spirits of that constellation will take that creature as their sacred messenger.
