They fail miserably while the balance of sins is created. Each sin will lower the left side. If the left side ever touches the bottom the universe will be massacred

Coilguns, railguns, huge artillery weaponry. Advanced exoskeleton armor. Supersoldier cybernetics and serums. A massive machine for the construction of megastructures (be creative). Stratosphere operatable military aircraft. Spaceships. Cryogenic weapons. Electromagnetic bombs. High Power Microwave bombs. High Power Electromagnetic Pulse bombs. E-Bombs. Nuclear weapons.

The European empire opens its space programme with the goal of gathering the resources of space and bringing them to Europe. They use the research done by the Catalans to speed up progress on the programme, however all that they find are scribbled notes and some field generators (which might be used for shielding). And in a speech the Emperor of the European Empire Garry Wyzklos would say that they get a man on the moon (or moon fragments or whatever) in 10 years.

Also forced military training is mandated for at least 6 months.

Scrap most of this,

The European Empire would try to recreate Catalan shipping technologies with major success. The European Empire was now in the space age, with the recreated ships they reverse engineer the individual parts, and begin designing a space fleet in secret, in the mountains of Sweden with none of it officially existing. If the fleet would be built, the first step of solar domination would be ready to put in place.

The Dark One, an evil entity from the galaxy neighboring the Milky Way, takes over hundreds of solar systems relatively close to Earth's solar system.

Due to the Mongol empire now being confined to Asia, the only lands they get to keep in Europe are Russia, Belarus, Ukraine, Romania, Turkish Thrace, and the Greek Aegean Islands. So their armies waiting to invade the balkans gets reouted to invade the Arab Gulf States and Central Arabia (AKA Saudi Arabia)

The Mongol Empire, knowing that their rule is tenuous at best, decides to reform into the Golden Asian Republic, split into multiple, federalised regions.
