(Party + explanation)

The Syndicalists seem to be the most sensible of the three organizations I considered. Still I'm critical of it. Anti-theism is a divisive position especially for a revolutionary organization to take. There is a reason international socialists, anarchists, and communists have often taken to working with religious organizations in the cases their interests align over the past century. See the rise of Liberation Theology.

It's something I've worked into the lore rather than something I actually believe, since Anurial gained independence from a theocratic state. It still remains one of the more unpopular policies of the government too.

Whilst it would most likely be Ankrasian Alliance of Trade Unions, the People's Party of Republicans and Democrats is also a considerable option.

Pro and Anti

Luxemburg and Bookchin did nothing wrong.

I've been on this site for 2 years. I don't know if this is an accomplishment or just sad.
