Monkey 3984 got on the bad side of Monkey 3986, who just so happened to have recently invented a working laser gun and built and assumed a robot body.

3983 took the holy banana research, 3986's conciseness, and the holy banana and brought them back to the monkey republic for a base located near a mount monkey, he sent 3982, 3981, and 3980 to guard them. Later that same day, the doges attacked and 3983 took all his research and stolen stuff from Siberia and jumped in a volcano, committing suicide

After a very cold winter in the monkey republic, the lava in mount monkey dissolved leaving behind the holy banana, 3983's corpse and research, the holy banana research, and a usb drive containing 3986, monkey 3978 found these and took them back to Siberia to be study thoroughly, monkey 3977 and 3976

While monkeys 3977, 3976, and 3975 were gone, three researchers who had found the disk found the part that would take info about the last two and sent this to the empire, much like a greeting card. Though not much was said about it, the body of monkey 3977 was found and studied by the Institute.

3975 was a professor at the institute of technology, the institute where the holy banana is, he taught class 4b, the class of robotics. Currently the mr and chad is at war with the doges, the doges took bombs and bombed the institute of technology and monkey university, 3975 may have died but he saved 3974 and 3973 brought them to a lab where they researched stuff, they were there to protect themselves, after that the institution was destroyed

3975 is dead but 3974 and 3973 are alive, no one else in the institution is alive

After the chad backed out of the war the mr had nothing to do but surrender, they were helpless until 3974 took control after the bombings of the institute, he said to all monkey that they would take back chad and defeat the doges, the monkeys armed themselves and fought their hardest killing the entire doge army. After this shocking defeat, the doges surrendered. This was a monkey victory, bit then a assassination for 3974 was successful and he died passing the leadership to 3973.

Monkey 3793 invented a time machine to bring back the holy banana, but it failed and created a black hole that the entire earth was sucked into, killing every monkey except for monkeys 69 and 420 who were astronauts currently on Mars doing research for Elon Musk (who is also on Mars).

Monkey 69 was looking around the remnants of earth to find anything remaining to continue research of the black hole incident, and guess what he found? THE HOLY BANANA. The holy banana was still intact even though the black hole sucked the entire earth into it, monkey 69 connected the dots and the rumors, and decided that in order to bring back the monkey race, he must take a bite of the holy banana.

And monkey 69 did it, he took a bite and achieved the infinite knowledge of the holy banana, ascending beyond the mortal concerns of monkey society and becoming the ultimate monkey. Using his infinite knowledge, he created a cloning machine that could effectively clone monkey 69 with a small portion of the knowledge he obtained(which would still be huge, practically genius levels of knowledge), and he began the cloning process, creating 2000 clones of himself, in which each of them created new technology to rebuild monkey society faster and achieve a new age of prosperity, unfortunately the cloning machine malfunctioned while cloning monkey 69 for the 2001th time, causing it to explode and kill monkey 69 in the process.

Proceed to jump to monkey 2070 and continue on from there.

not from the knowledge

but from the ANTI MONKE COALITION

2068 had found research on this "anti money coalition" and found out that it was created by monkey 2067 and 2066 to be the last ones alive, 2068 found the holy banana with 2 bites in it and made a 3rd bite, he gained infinite

knowledge and power, he became the most powerful monkey in the universe, until monkey 2067 extracted 2068's DNA and blood, and when he was unconscious, 2067 ripped 2068's heart out, killing him.

The anti monkey coalition hid his body, blood, DNA, and heart somewhere secret, and put the holy banana and research of it in the lab.

2066 had a insane amount of money by selling the holy banana on eBay, he used it to by his own private island and underground highway connecting the lab on the mainland, he hired 2065, 2064, 2063, and 2062 to steal all of 4837's belongings, the were successful but 2066-2064 died in the the process, leaving 2063 in-charge of the anti monkey coalition. Splitting it into the terrorist group(the anti monkeys) and the anti monkey group(anti monkey coalition).

Monkey 2062 was driving the bus that hit Monkey 2067. He lost control because he had a heart attack and died. The 40 passengers on his bus also died but none of them were monkeys.

The hit and run driver who killed Monkey 2039 is now being sought. The killer is wearing a grey hooded sweatshirt and black jeans. He is 5'8" and weighs about 180lbs. He has a tattoo of a crow on his left cheek. Anyone with any information is asked to contact the police force.

Monkey 2038 was eradicated by the celestial powers 4 minutes after buying the holy banana from monkey 2066, which caused an explosion that also killed monkey 2037 and monkey 2036. Somehow the holy banana still remains intact, maybe its just the celestial powers protecting it.
