Nadja - *Autosomal (Version 3)*

“ **CVT Temp wrote:**

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Playing it now.

[Muse - Uprising](#)

This is *really* good.

EDIT: And now that I'm reading the lyrics...yeah, this is freaking awesome.

[Muse - Uprising](#)

Neither was I really. But I found those songs quite pleasant, and I loved the lyrics. If these songs are a good representation of the rest of their stuff, then this is probably the first rock band (not sure what specific category they fall under...so I'll just say rock) I've found that I'll listen to regularly.

Beauty is in the ears of the listener I suppose. ☐
