PMT/Early FT - Decopunk. Zitravgrad is a crowned republic in a planet somewhere else in the universe. The formerly wartorn nation keeps a facade of normalcy and order while enjoying the societal and cultural decadence that marks the new Roaring Twenties. The paranoid authoritarian government tries its best to uphold order in the face of uncertainty, while its people want nothing more than a breathing space. Was too busy raiding as a road warrior. Now to his deeds. Offshore oil fracking is no more for his country, I guess, dude's gonna replace oil with an alternative. A sustainable one, hopefully. Free market? Who the hell needs it, he says. Alright, big guy! Just don't overregulate the economy dude, or make sure ya' know what you are doing! Manually controlled economies are hard to manage, and consequences of fucking up this are not pretty. Hmm... this graph says it's sustainable, so he is rather competent steward too.
