They should have hired a fucking choreographer. Toilet swirls are way more interesting than the guy dancing in the video.

I normally dislike 80s synth pop, but now I feel like listen to an exception.

It's a meh. It's a nice song, no doubt about it, however the video is lackluster, boring, lame, and needs way more concept. They could have went so many ways with it, but ended up going without a story or a performance video..
