All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Cusp of Eternity - Opeth

Genre: Progressive Rock
Album: Pale Communion

One of the only songs on this album that sounds vaguely reminiscent of their earlier progressive death metal material, which I still need to go out and buy. That said Opeth is still one of my favorite bands.

OutKast - Ms. Jackson

Man, when you listen to the lyrics, this song's actually kind of sad.

If liberty means anything at all, it means the right to tell people what they do not want to hear. - George Orwell

Wise men speak because they have something to say; fools because they have to say something. - Plato
