everyone knows that quote, "I know not what weapons World War Three will be fought, but World War Four will be fought with sticks and stones," but in a way it's optimistic and inspiring because it suggests that even after destroying civilization and returning to the stone age we'll still be sufficiently globalized and bellicose to have another world war right then and there

Get the free version of Spotify. Though, I think it's only limited to 6 months now for people who didn't get in the American version early. Because I've heard it said it's limited to 6 months of free Spotify (you have advertisements, but it's gotta legally exist somehow), but I've had it for over 6 months free. I think it's because I got an early invite from my brother.

AKACOD - Yellowest Leaves

Amazing jazz band formed from the shattered remnants of Morphine, slight shame that Ortiz hasn't done anything so good lately.
