The Faint - *Let The Poison Spill From Your Throat*

CVT Temp wrote:

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

[Kingston Wall - The Real Thing](#)

*She walks down the stairs
with dignity and no rush at all
Her appearance makes you gasp'n'stare,
her presence makes you feel like you'd crawl*

*She takes a look around the place
makes the other ladies feel disgraced
She takes a drink and stands
you just can't take your eyes off her figure,
she laughs with her friend who ain't a man
now you're getting so, so eager
it's time to try your luck again
but remember what I say*

*It's gotta be the real thing
for that lady*
