Perpetrator hunted down by angry tribesman and thrown off a cliff. The only Caleshan 'Brands' are their tribes, and trying to use their name without being a member in order to peddle knock-offs of proprietary products is considered to be espionage.

Excessive and intentional littering

Godulan Puppet #2, RPing as technologically advanced tribal society founded by mongols and vikings (and later with multiple other Asian and Native American cultures) motivated by an intrinsic devotion to the spirit of competition. They'll walk softly, talk softly, and make soothing noises as they stab you in the back and take your stuff... unless you're another Caleshan, whereupon they'll only stab you in the back *figuratively*!

Used NS stats: Population. That's it. Anything else not stated in the factbooks is not used.
