Hereditary semi-absolute monarchy set in the 1600s

I don't want to debate with you, I just wanna grill!

Has the power to wipe out the world and conquer the universe, instead spends its time grilling.

Anarcho-capitalist authoritarian state.

A federal left-wing nationalist country situated in a fictional world in the extended Cold War timeline. Authoritarian by Western standards, Libertarian by Eastern standards. Atomic Tech - The year is 1978.

In process of retconning, especially regarding geography and demographics.
