A medium-sized semi-arid country with its own version of Chinese history, even have one girl with access to the internet surviving the constant current censorship row by the surrounding country it exists talking about the country itself, and is pretty close by in terms of distance. Would love to see more of the Loulanese people and their addiction for tea, if that means getting close enough to meet them with open arms.

A Pan-Asian survivalist nation who doesn't need international help when disaster strikes, and is only one nation away before total reunification of the continent.

Latest Ticks: G32 is renamed to G51 after western Asia falls into anarchy. The Academy is attempting to figure out a way of getting Japan into the Rebelian side.

The city of Fort Zapata is the political capital of North America. The city is located between Texas and Río Grande. The reason why the capital is located in this place is because it was the hometown of Alejandría Xóchitl, an important North American revolutionary.

If I interpreted their statements correctly, they seem to be ready to nuke themselves if anyone actually lands on their coast. Which is... interesting. It mirrors the kind of scorched earth mentality that led to the development of the Blue Peacock mine back in the 50s, except with a tinge of that classic Soviet "if we can't have this then you can't either".

While they had made a valiant effort to stave off the British navy in the 1700s, the Brits just marched in overland and set their capital on fire. Not sure why that was necessary, since they could just, yknow, occupy it. But hey, it forced a surrender.

Kabzeel, meaning "God's Gathering" in hebrew, is a *federal, dominant-party, socialist(non-marxist)constitutional monarchy* with a rich Jewish heritage dating back to it's creation in 845 CE. Today, it spans almost the entirety of Eastern Europe and is the largest predominately Jewish and female-led state in the world as it follows the doctrine of "*Royal Socialism*", a paternalistic conservative ideology with an emphasis on socialization, social ownership, and conservative feminism. Its relationship with Israel is noticeably rocky, but this is due to the ongoing complications between Kabzeelian and Israeli Zionism.

They started off as an ordinary pharmaceutical company, until their founder, Timothy Howards, became obsessed with creating "super drugs" that would supposedly cure all human diseases. The first of these drugs was released in 2008, then quickly taken off the market, due to its side effect of massive brain hemorrhages. Today, their newer "super drugs" are much more of a commercial success. According to another one of AN's posts that I saw, however, the newer drugs secretly also have horrific side effects, like forcing patients to relive traumatic memories or making them extremely vulnerable to brainwashing.

Inkopolita has it's own unique version of capitalism called Capitalism with Inkopolita Characteristics which seems like a parody of Chinese socialism.

The Avant-Gardist State of Patagonia ~~~ Gauchos and Mapuches, orgies and parties, avant-garde art, futurism, syndicalism, the New Man, general strikes, the glorification of violence, spiritual nationalism, esoteric occultism, CIA spooks, Spartanian homosexuality, public sodomy, and more

Triomphe du Surréalisme (1968)

- There are many things said about Patagonia but few actually know what goes on behind the Andes mountains. Tales of human depravation and man's inner darkest self run wild. A place where avant-garde culture flourish and the artist don't fear the censor. Where all live bold and free under the gaze of the Patron. Yet all dreams will come to an end soon...
- Not expecting an essay. Just a couple of sentences that shows that you know my work well enough
