Monkey 4862 suffered from a heart condition, ultimately killing them

People tend to assume that Entrance of the Gladiators by Julius Fučík is what that  
ever so famous circus clown theme is. And in a way, it is. Nobody would ever  
argue with you on this fact.

However, if you want to be an unlikable, pedantic jerk, the song actually known  
to be circus music would be a version composed for American woodwind bands  
(and later transcribed for fairground organs) titled Thunder and Blazes,  
published by Louis-Philippe Laurendeau.

Of course, this information is of absolutely no consequence to anyone.

Monkey 3599 got back in time to 1945 in Hiroshima, when he jumped of the plane and tried to fall on the nuclear bomb and disarm it.

Monkey 3596 was in military. During the great war which in he fought, there was no food, and he was so hungry, that he tried to cook a dynamite (he confused it with wiener) for dinner, which exploded and killed Monkeys 3595 (his drill instructor who was yelling at him for stealing and cooking a dynamite), 3594 and 3593 (his army mates).

Monkey 3592 caught COVID-19 and called it "Chinese Coronavirus" when announcing his plight on Twitter. He was doxxed and beaten to death for his racist comments.

It wasn't a typo. Vulgaro-Graznavian Commonwealth has been trying to derail and otherwise skip-a-few this thread for the last few pages.

Monkey 4891 taunted Cthulhu.

Yes that wasn't a typo because look how many monkeys I killed in previous page.

That's why now should be Monkey 3591, now.

I think you should know by now that most of us aren't fans of skipping 1300 monkeys in one post.

Anyway, Monkey 4890 went to an alternate version of this thread where everything was much worse. Monkey 9999 destroyed all life in the omniverse and the mods locked the thread after three posts. Realizing that he couldn't live with the knowledge of how much worse things could be, 4890 committed suicide.

Monke 3591 looked too closely into monke 4996's death, and committed suicide so un-suspiciously that his body was found gagged, bound, and covered with defensive wounds.

(that's right, go look for 4996 in the previous pages you fool)

Also I just looked at the current page and I have no idea what the real # of monkes is

Bullsh\*t! It's 3587!

Monkey 3587 was accidentally killed by Monkey 3586, because he want to show his Krav-Maga skills.

Monkey 4888 was taking a tour of a game demo when he stumbled upon a button that said "Eight!" every time it was pushed. A janitor discovered the body of 4888 three days later, dead of dehydration and yet still pushing that button.
