Father Knows Best State

India?

This place is not a place of honor... no highly esteemed deed is commemorated here... nothing valued is here. What is here was dangerous and repulsive to us. The danger is in a particular location... it increases towards a center... the center of danger is here... of a particular size and shape, and below us. The danger is still present, in your time, as it was in ours. The danger is to the body, and it can kill. The form of the danger is an emanation of energy. The danger is unleashed only if you substantially disturb this place physically. This place is best shunned and left uninhabited.

The Republic of Oswyn Islands • Unbedeutend, aber stolz

A small, modern **republic** in Oceania currently under the *Präsident der Republik* **Marius Keßler**. Having long been stagnant in its politics and uninteresting in general, the current president is aiming for global recognition for the country and all its greatness.
