They don't believe in war but in self defence and...crusades. Which some would call a type of war.

The Empire pretty much allows the Black Market to operate as long as it doesn't provide rebels with weaponry because it is a major user of the Black Market itself.

For a galactic empire, they're surprisingly balanced and not nearly as infallible as one might think. Having an actual limit to how many troops they can safely send certainly helps them seem less unstoppable.

Octavia is a highly xenophobic space empire that was birthed after the 'defence' war. Its poor outlook on other races was relaxed slightly after the conquest of other worlds. It's constantly expanding so censuses are practically impossible.

Their Federation encompasses the entirety of North America, unsurprising, and they have a population of over 1 billion. Rather impressive. I'm guessing most of the citizens are Mexican and from the "US"?

In the 1100s, the territory that is now part of modern day Wochaystein was a battleground between the Wochaysteian (?) peoples and the Syagros (?) people. Eventually, Wochaysteians managed to repel their invasions.

They are a theocracy and live up in the Jagged Mountains.

"Jesus was the first socialist, the first to seek a better life for mankind" -Mikhail Gorbachev.

I'm just a simple man trying to make a country on the internet. And yes I do not use NS stats.

The Democratic Socialist Republic of Karevka (DSRK) is supposed to be a stand-in Soviet Union, although with major differences like the allowance of private business (But the state is a partial owner) or the fact that they allow LGBT marriage. Kind of alternate history or alternate universe I guess.

The Karevkan War of Liberation began in 1925 when Grand Baron Lipov Julki publicly declared war on Viktor Sumoiek's newly organized Socialist People's Bloc of Karevka (this would later become the Karevkan National Army) who were opposed to the Julki's oppressive policies towards the working class.
