Świty Zmartwychwstania - Horytnica

Genre: Heavy Metal
Album: Głos Patriotów

So far, even though vocally some songs might not be as strong as others, the guitar work continues to be the highlight of this entire album.

Słowiańska Armia Pracy - Hortynica

There's almost a certain dance-like quality to this song.

Epilog - Horytnica

Genre: Heavy Metal

Album: Głos Patriotów

And a nice piano ending to a great album.

With a repeat of one of the best melody lines of the entire album, makes the ending even better.

The Seed - The Roots.

I don't ask for much these days

And I don't bitch and whine if I don't get my way

...

I don't beg from no rich man

And I don't scream and kick when His shit don't fall in my hands, man

'Cause I know how to steal

Amazing instrumental for this track.

Dark Tranquillity - "Insanity's Crescendo"

Melodic Death Metal from the Compilation *"Exposures - In Retrospect and Denial"* (2004)

This song, like most of Dark Tranquillity's discography, never gets old.

Cadaverous Condition - *The Once And Future King*

“ **CVT Temp wrote:**

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
