Although Race is officially not accounted for, membership of different native groups is normally listed in census information, and it is estimated that around 5,000,000 registered members of various tribal origin live in Kronova.

Washington isn't the capital and neither is New York. Fort Zapata, founded pretty recently on the coast of the Gulf of Mexico, is.

2289 A.D.

In the early 21st century Siberia was struck by a massive asteroid that brought untold devastation and the collapse of almost every government. An alien virus, capable of mutating its victims, was brought to Earth as well. Eastern Europe, Siberia, China and countless other regions fell to the mutant horde. Europe became a medieval landscape ruled by feudal lords. The Middle East unified into a single Sultanate over time and entered a golden age wherein they have learned to co-exist with mutants. The Americas, which have lost contact with the old world, have turned into a Mad Max hellhole.

The time has come to make yet another nation. You'll probably recognize me.

Athralia adopts a system of half-direct democracy, with representatives responsible for making law and the top executive (Lady Protector) elected to execute law, but with the prerogative for groups to call referenda to overturn various decisions, from rejecting or choosing between constitutional amendments or laws to removing the Lady Protector from office immediately (assuming I understood the term 'popular initiative' correctly).

Notably, the Lady Protector holds office indefinitely, rather than having a fixed term following which elections are held, but can be removed via popular initiative, as above. Also, they have no political parties.

Once a state-managed economy, Las Palmeras has evolved over time, through several step-by-step movements, to allow restricted private enterprise, then lower regulations, and finally capitalism with an eye to bettering the means of production.

Their Prime Minister, Oswald Eindride, has implemented an economic policy that combines the visible hand of the state (left) with the invisible hand of the market (right) in what they refer to as a "guided market economy" in an attempt at advocating for national unity.
