I've been playing Stellaris recently, reminds me of a gate.

Sorry for the long wait, but my new nation is still a slow work in progress. Completely new map than this one has.

Things to keep in mind:

- This isn't a single nation, but a whole planet full of many nations. I will usually reference a certain nation when posting.
- The flag being used is just to represent that it is a planet, it is not used at all in the 'canon', as there is no one flag for the planet. Instead I chose to just use an image of the planet.
- I've referenced the prequels 124 times on F7.

PMT/Early FT - Decopunk. Zitravgrad is a crowned republic in a planet somewhere else in the universe. The formerly wartorn nation keeps a facade of normalcy and order while enjoying the societal and cultural decadence that marks the new Roaring Twenties. The paranoid authoritarian government tries its best to uphold order in the face of uncertainty, while its people want nothing more than a breathing space. I don't know what to write. Why everyone has so many links in their signature? I'll just try to add something ummmmm..... I like things, star wars, spaceships, and explosion, and slugfests(in movies or games or video). I'll try to add military factbooks, but I don't know where you can make war machine models for free, and I don't want to use things on the internet because

it's someone else's and doesn't fit what I'm thinking of, and because I think I'm creative.
It's probably a run-on sentence, but who cares. Well, at least I don't.
