Vader - *Out Of The Deep*

CVT Temp wrote:

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Darby O'Gill - The Irish Ballad

I know I shouldn't be laughing at a song about a woman who murders her entire family, but it's absolutely hilarious.

Baroness - Stretchmarker

Can't we just like, pause time or something so we have more time to listen to a ton of music that we want to explore and appreciate? In my mind there's *too* much good music out there that it's almost impossible to actually listen to it all. Especially when you want to not JUST listen to music, and do a bunch of other various things as well, like gaming, getting a life, and so on. I need to listen to both Devin Townsend and Baroness....
