Monkey 2354 was brutally dissected and rearranged by top scientists at Mountain Dew's advertising head quarters for the purpose of Super Bowl L.

This nation is a consolidated lore repository for the greater canon in which the nations Arkeyana, Gladian Imperium, and Trifexian Network reside in, without creating far too many puppets.

Nothing lorewise yet, please bear with me. Call me Ark, Arki, or Arkey, I'm willing to answer any questions on how my nation works.

Monkey 2349, still alive, was found with the female monkey 2351 (deceased) after burying himself with her. Delusional and obsessed monkey!

Monkey 2349 was then executed for his crimes.

Monkey 2348 made a "when the impostor is sus" joke to the wrong people. He was then "ejected" into the sun.

Monkey 2347 tried to divide 0 by 0 and created a interdimensional rift in time and space that broke the bonds keeping his atoms together

Monkey 2343 found a new way to wear a necktie after suffering depression from all the misnumbered monkeys.

EDIT: I counted from my last post. Learn to count, people.

Jebslund is a nation of kerbals ruled by Emperor Jebediah Kerman. We reject tyranny, believing that rights should be protected, though we also believe said rights end where the rights of others begin. Shockingly, we *do* use NS stats, with the exception of lifespan.
