They're basically a colonialist's wet dream, have an interesting religion and a well-developed history, for some reason aren't called *Serkland*, and for some reason use a Japanese term to refer to their Latinized spelling.

That last part makes me extremely exasperated

In canon with [Old Varegia](#) and [Ephera](#).
Curious about something? Read my factbook, or ask me about it.
Disclaimer: Gostmark isn't really racist toward any human ethnic groups per se, but rather focused on hating non-humans, which exist in this world.
We use a different calendar! The current year (equivalent to 2019) is 1513.

Aliens called Lanteans arrived on a planet called Terra, mixed in with the local Terrans, and formed a government. And there was a flourishing of scientific development starting from the year 1500. But a war started in 1750 when the Terrans were discovered by the native Humans (prior to this, the Terrans concealed themselves with Lantean technology). The war ended when the humans' memories were wiped by someone with a supernatural power later known as Geass, and the Terrans had to rebuild. The government became an autocratic monarchy with some democratic elements. From 2000 to 2100, there were conflicts over environmentalism, which culminated in a man named Arill leading an interstellar relocation effort. They landed on a planet which was called Arillia, developed even more advanced technologies (but had to be cautious with spatiotemporal manipulation). From 2200, they spread out to occupy two-thirds of the galaxy. The Galactic Empire of Arillia is currently at war with the Terran Empire.

The President of the Federation has committed suicide. The nation also seems to be living far into the future as the year 11.000 something is mentioned. From what I gathered, the Federation is an interstellar civilisation.

The city's infrastructure is crumbling under its own weight and kinship is snuffed by the paranoia of totalitarianism. Yet the people would be in for a surprise as their virtual overlord have died many years ago as the oppression continues under his name...

The Museum of Philippine Revolution is a museum erected to commemorate the "national struggle" of the indigenous Tagalog Peoples in their creation of the New Philippine state. The Museum is the country's fifth largest museum, and is a bunker-like structure, built mostly underground.

Kabzeel, meaning "God's Gathering" in Hebrew, is a federal, dominant-party, socialist(non-marxist)constitutional monarchy with a rich Jewish heritage dating back to its creation in 845 CE. Today, it spans almost the entirety of Eastern Europe and is the largest predominately Jewish and female-led state in the world as it follows the doctrine of "Royal Socialism", a paternalistic conservative ideology with an emphasis on socialization, social ownership, and conservative feminism. Its relationship with Israel is noticeably rocky, but this is due to the ongoing complications between Kabzeelian and Israeli Zionism.

It is a war-torn and dictatorial nation standing alone against the even more totalitarian superstates of Oceania, Eurasia, and Eastasia. They have a Latinized form of Arabic used for writing and encryption. The only religion that is banned is something called "War Worship," which "makes ISIS look like a pacifist group."
