I used to make a living repairing VCRs and cassette recorders back in the day. shit went down for me after that stuff went obsolete and I failed to adapt. I'd say YES because I'd easily become very rich there with my skills, assuming their socialist leanings don't end up in the government stealing most of my fortune.

This line alone tells me all that I need to know about AN for me to not want living there.

I'd probably be happy enough there but I wouldn't live there by choice

My nation - which is pretty much just a unified Korea with some extra territory - represents my real views, as does pretty much anything I say on the forums. NS stats only broadly representative. Feel free to call me Q&K, Quartia, or any other nickname.
