Monkey 6526 had a pommel thrown at him, ending him rightly.

Please ignore my NS stats. It's very much a work in progress.

Monkey 6520 was force-fed mud until its torso exploded.

People tend to assume that Entrance of the Gladiators by Julius Fučík is what that ever so famous circus clown theme is. And in a way, it is. Nobody would ever argue with you on this fact.

However, if you want to be an unlikable, pedantic jerk, the song actually known to be circus music would be a version composed for American woodwind bands (and later transcribed for fairground organs) titled Thunder and Blazes, published by Louis-Philippe Laurendeau.

Of course, this information is of absolutely no consequence to anyone.

Monkey 6512 just suddenly dropped dead. Later autopsy could not confirm any particular cause of death.

Monkey 6511 was deathly afraid of downs and somehow didn't think it would see any at the circus.

Monkey 6509 was almost going to be killed as bushmeat before getting saved by the infamous East Kekistani Temperatist Movement in Africa as their "evidence" that Congolese people are somehow evil. Later Monkey 6509 died in a zoo in Beijing.
