Netherlands.

I'm legitimately curious why you say that. I'm not judging or saying you're bad for the guess but I wonder what gets it.

Czech Republic (don't ask why)

United Federation of Zitravgrad

[Introduction/Factbooks](#) | [Leaders](#) | [Q&A](#) | [Guide to Character-Building](#)

PMT/Early FT - Decopunk. Zitravgrad is a crowned republic in a planet somewhere else in the universe. The formerly wartorn nation keeps a facade of normalcy and order while enjoying the societal and cultural decadence that marks the new Roaring Twenties. The paranoid authoritarian government tries its best to uphold order in the face of uncertainty, while its people want nothing more than a breathing space. A deal that works, but maybe not in the long run. | [My NS-Related Art](#) | Hehe bad meme as flag

Russia or some other post-Soviet breakaway nations.

[President Kolchak](#) ~ [Overview](#) ~ [National Anthem](#)

**Transamur Republic:** An partially-recognized state and international pariah set in the 1920s and located in the Russian Far East formed shortly after the Russian Civil War by remnants of the 'White' faction. Now, a military dictatorship with a

growing industrial sector hell-bent on 'liberating' Russia from Soviet iron grip through modernization programs and political repression. More or less, different from the Kaiserreich version.
