Rapture City

- In the underwater city, two roles have emerged from the City's ongoing civil war: the **City Monitors** who defend the peace and the **Red Caps** who fight against unjust systems. The city's infrastructure is crumbling under its own weight and kinship is snuffed by the paranoia of totalitarianism. Yet the people would be in for a surprise as their virtual overlord has died many years ago as the oppression continues under his name...
- Not an 1-1 exact replica of **Bioshock** lore and **Rapture City**. Only the city's atmosphere and setting is maintained.

I don't see what's so 'tragic' about this corrosive liquid. A calamity may have struck her nation and people, but in the face of destruction, she had become stronger than anyone could have ever imagined. Sure, she is little more than a figurehead, however, her story is not a tragedy in any way I know. Alas, I must wish her farewell in future affairs. While I may disagree with her title, the apocalyptic world she inhabits is still a threat.

He is a writer of terrific wit, taste and intelligence.

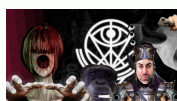

I was lucky enough to learn more about his writings from his reign, in which he sets in stone sage advice. I wish to visit Adad and set about gaining new insights. His legacy helped turn my attention to literature, which is where his talent lies.

Ah, yes. The Giraffe Man, who dresses like a emo, and seems to act like a desperate child trying to get attention from his obviously unloving father by waging war against his fellow mortals and being the most villainous of individuals that he can be, just to get attention from his father, who couldn't care less about him and probably would be happier to see him dead than hear "Look me at father!" A thousand times.

I suppose that's but harsh, but frankly, it's true. The Giraffe topples his successor for trying to make amends for past mistakes and wants to create a better world for his people by peaceful but no, the Giraffe Man kills him and calls him a coward for doing something rational. And then followed by this, the Giraffe Man destroys all the good that his predecessor has done and implements Orwellian policies, and like his policies, goes full 1984 and attacks his neighbors in all directions because.....Why not? Although, the reason looks to be an edgy ritual as a way to get attention from this "father" and from what I'm seeing the father only responds with granting him fancy physical abilities for him to go away, not really wanting to know his presence besides seeing him as a mere pest. It's really sad and pathetic, like come on, dude. Do something better with your life, instead of trying to get affection from that father, well, a cosmic entity who cares nothing about you. Overall, with me saying this. The Giraffe Man

seems to hold a sense of curiosity about me so...Perhaps. I should have been nicer and not come off as a jerk. Ehh, oh well, this forum requires your bluntest opinion of a person so hopefully Giraffe Man won't take it personally?

OFFICE OF THE PREMIER

Regarding Captain-General Casey Pickett.

What a wild and exciting case this Monsieur Casey is. Never a dull moment in his presence. Though I certainly enjoyed his company as a person, I simply must be abhorred by his politics at hand, but aren't we all? His policies of White Nationalism leave a sense of inhibition while in the presence of others, but that is always to be expected with controversial leaders. Though I would govern his nation differently, I cannot say I would be bored learning with the Captain-General.

Indeed, one can be stronger even unarmed, for words can sway minds, create and destroy nations, but we need them to defend the innocents and serve justice. "This is a premier example of how technology and material things are such an insidious addiction. They tell you all of these things that you cannot do, force you to use it in order to function, and make you fight so hard to keep it within your reach. You do not need those things to feel comfort. You do not need those guns to feel secure. What value is a gun when you can imagine a flaming sword into existence that can slice an armored vehicle in two from a thousand yards out? How cool IS that?

"Normally, I'd hate monarchs, especially the liberal 'enlightened' despot kinds. But, her policies are pretty good. She introduced the internet, or her world's version of the Extranet, to her realm. Such technological progress is appreciated. I also like her stance against autocracy, even if I dislike constitutional monarchy almost as much. Though...how can you hate strawberries and not minorities?! Strawberries are tasty. Minorities just steal jobs and cross picket lines. Oh fuck, I just walked into that pun. Well, she'd hate my guts. But...

Oh yes, I almost forgot. Q and A time! Why do I tolerate ghouls and not super-mutants? Well, actually, Super-Mutants are tolerated within RCAS boundaries, just they don't have citizenship. So, they have none of the liberties or obligations. My hatred for the bastards is mostly due to the war with the Troll Warren. I lost a lot of good folks trying to stop those fuckers from dunking people into FEV vats, AGAIN. That and they really can't be ascended, even the smart ones. We could try, but that'd involve experimenting on them. But then, who'd be the real monster here?

Oh and we did experiment on feral ghoul brains before trying out the ascension process on ghouls.

As for why I'm a white nationalist when people can have new bodies? Well, I don't care for racial purity. 'White' is a pretty flexible term, covering everything from hairy Sicilians to gingery Irish-descended folk like myself to blond Nordic types. I thought my Openpedia page explained it. Hell, I even assimilated Indians as 'honorary whites' and Hispanics are considered white in many of the states

within the RCAS and all of the syndicates. I'm trying to get the ones in Cowboy Country full citizenship if they serve within the Cowboy units, but the Cowboys were viciously opposing it. But, I think the state will finally give rights to assimilated Hispanics within a few years. So yes, I'm not for racial purity. I'm simply against minorities since I consider them enemies of America. As the Shi demonstrated, they haven't assimilated even after hundreds of years of being separated from their home nations. I also have some old grudges that needed to be avenged, and I'm not giving the people who helped America's demise godhood. And don't worry, I gave the Enclave and Caesar's Legion the same treatment. All those who stand in the way of the Democracy will be the trampled!"

"Oh, how utterly uncivilized, to be against the very foundations of society, religion, and a functioning economy. Who is this, a man, to speak out against the churches? Who is this, a man, to speak out against international agreements and trade? Who is this, a man, to speak out against technological progress? Or this, perhaps one of the most farcical things he stands for, being against discrimination? What, is he going to stand up for the rights of spiders? Much of this has no place in a civilized society. People must accept that not everyone is born equal, and that is how it is supposed to be. No *plebeian* could even be equal to someone of *noble* birth, and no noble could ever truly be a *royal*. Certain species are barred from joining the nobility, and for good reason. Not all species are truly capable of being civilized. But even within civilized species, there are unfortunately outliers. Archaedus is one of them, born with disability marking him unfit and unequal, then serving as a common footsoldier, not even a *proper* military position, like officer, or cavalry, yet he seems to think himself on the same level as royalty? The utter gall of this man is extraordinary! He is but a plebeian, one of the ugh... unwashed masses. I shall bite my thumb at him!"

PT/FanT - don't underestimate us just because we're PT, the FanT is strong with this one.

Yes our leader has a long title. *No*, that is not a self-appointed title, nor by choice. It is of political significance; excluding even *one* part of the title could lead to revolts.

This nation does **not** represent my actual views. Anyone who thinks otherwise can talk to our [friendly inquisitors](#).

"Noble birth? Ha! All those Caligolus "Nobles" shit the same, bleed the same and die the same as anyone else! They may think, that they are gods or something... but in the end, people get pissed off with that attitude and they end up in exile or dead. But... they are useful in some way. Those wannabe "Patricians" accumulate wealth, that can be looted and redistributed among needy and deserving, and should this "Glorious Excellence Whatever I Don't Even Give A Shit." get any ideas about taking away our country, we have plasma rifles and miniguns, and we gonna gun all his imperialist army down, yeah! Cavalry? They are pretty rich, so we gonna hold them for ransom, and of course, surviving horses gonna be sold, and dead ones processed into delicious foods.

We are born and live to enjoy our lives and make lives of tyrants and oppressors a livin' hell, and there ain't no shit he can do to change this. Deal with this!"-Shawn Bjornson

Constantine Sein Lin Zaw Naing: He's not that bad of a person... relatively speaking. In Rapture standards, and from what I have seen, he is not as bad compared to the others, like the Chancellor. With that said, I am simply appalled, I must say. Something about prostituting women, goodness gracious. I don't care whether she will become a "Sugarcoated Princess", or something along that line, but tell me that the life of a prostitute is not a game of luck. I mean, consider this: What happens when the person you are sold to is a cheating bastard, or an abusive jerk of a man? I only shudder to think and I will dare say that he is effectively a pimp, and I will even as stretch as far as to say that he is a slaver of women. And to think that they have allies and buyers all around. I suppose that there will always a market for these kind of things, and we Valentians are not going to touch it even when threatened. For this development, I am... well, negative. What the hell else do you want me to say after hearing about "Mr. Pimp" over here? Hell to the naw, man. You are so out of wack that I, a slightly crazy person, is calling you that. "Good" day to you.

(I swear, TRR posted something and it's gone... ah well, standby for AN.)

Valentijn "De Sierlijke en Vrij Valkyrie General ov Valentine Z" Samantha Maxwell Delta Weston Stijn Angelus Tracey Mitchell Tristian Mamix Svitw. Lewis Hyatt X. Constantine Sein Lin Zaw Naing: The dossier, to me, is unfortunately something that I have trouble reading it. At least on its face value. I have to extract the text and put it into my reader, among something else. Hey, I am not that old! I'm just... it's just difficult to read, young or old. Anyway, that fluff aside, what shall I think of you, Princess? You seem.. okay to me, at least. Not as bad as I imagined it, given the royalty thing that I have seen now and then. No offense to you, of course. Yeah, for a princess, you are treated well, and you did well, that is expected of a princess, but I am impressed by your military record! Perspective-wise, yeah, I'm still impressed. I got some other... out-of-Science stuff done to me, so I cannot put the expectations of myself on the others. I am just that person who likes to charge in straight-up and use myself as a shield. Anyway, I am getting off-track. Positive on you, for now! Because hey, we just met!

choose their own leader, why is he a king and not a president? His current position in the system is owing to him being a nephew to the previous king. His achievements are just resulting from that. All Zitragradian leaders as of today came from an election -- how else would the Premier and the Prime Minister come from two opposing parties? But here, I am not saying he is a horrid man. He is plain, simple and sees the world in black and white. And if he talks of any god in front of me again, I will continue to disregard him."

PMT/Early FT - Decopunk. Zitragrad is a crowned republic in a planet somewhere else in the universe. The formerly wartorn nation keeps a facade of normalcy and order while enjoying the societal and cultural decadence that marks the new Roaring Twenties. The paranoid authoritarian government tries its best to uphold order in the face of uncertainty, while its people want nothing more than a breathing space. "There are some things that I agree with the First Lady, and other things that I disagree with. For one I approve that she is a big supporter for technology and science, after all technology and science is what pushes a nation to be stronger and better. As for her supporting AI rights I'll have to disagree with her on that issue. AIs are nothing more, but machines they are meant to serve us and obey us they do not deserve the same rights as other citizens have. For now my opinion on the First Lady is neutral, but slightly leaning towards positive." - Emperor Kham.

and the edge ain't missing here either. This tragic past is so cliché it might as well be a TV trope... Wait a minute, I think it actually is! Either way, she's so fuckin' uptight she might as well be related to the first lady, who's also a total bitchy person. On the flipside, check the curves on that! Man, and I ain't got no brake-"
