“ CVT Temp wrote:
I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Isis-C.F.T. (New Circuitry and Continued Evolution)

Should be done with all the metal bands I have on my list at the moment by the end of today.

3 albums to go, pretty much.

Isis-Gentle Time

Isis is turning out to be pretty awesome as well.

I'm still trying to figure out what Isis I used to know. Because even before getting into much metal, I remember liking Isis...Which just seems weird so far.
