Monkey 3540 was pummeled to death by the inhabitants of this thread for being skipped while 3542 was resurrected and killed again.

Monkey 3539 was trying to figure out what number he was but his calculator was a Samsung. He was horribly burned and required skin grafts on 98% of his body. Unfortunately, he didn't have medical insurance and "some guys" came to collect. Since he didn't have any money, they had to make an example of him.

Monkey 3520 was a colonist on the Rim with the trait "pyromaniac". He was corrected of this notion and is now a quiet member of the colony in his new role as the covering on a Masterwork-quality armchair.
