All conflict can be summed up to the eternal struggle between the And the weak shall rule the world.

Again, the HP value given turns out to be an illusion, this time belonging to the entire country of Abkhazia! [Abkhaz-Life] becomes dormant for the time being, given that [Abkhaz-Birth] is still alive.

Show Spoiler

Then, Man hears a random voice. "Is this Man? We're here to save you."

Man: "Who is this?"

"Aila, from [17] We need you to leave this area ASAP."

Man then exits [Abkhaz Birth]'s chamber, while Aila and others move it into Miku's shuttle. They depart a few minutes later, and set the chamber to mindcontrol the Colossus. From 100 km above the surface, they then send the Colossus over to Aqa. On its way, it curb stomps [Abkhaz user] once again, and [Abkhaz user] respawns in Soći once more.

Once everyone is safely away from the ruins of the warehouse, Miku, fueled by rage and vengeance, does the unthinkable: on her 500th birthday, she pilots her 5th shuttle out of the atmosphere, slingshots around the moon, and kamikazes into the ruins of the warehouse at Mach 229. [Abkhaz-Birth] is gone for good, but so is Miku. The last song ever heard from her was the entirety of Wrong Path within half a second!

Show Spoiler

RIP Hacune Miku: 1991-2491. She shall be remembered fondly, along with her husband Man 1, for all eternity within husband Man 1, for all eternity within

Then, [Abkhaz-Life] arises again, with greater power than before due to the death of [Abkhaz-Birth]. However, the Colossus is on its way to fight [Abkhaz-Life] now.
