Haha SAMs goes FWOOSH

Fuck getting a SAM system for your backyard, get something that'll destroy your lawn. Like a cheap, no longer used Leopard 1 for €30,000 in Italy. Why? Because death to a good lawn.

Overthrow Tamaulipas, just for the hell of it.

On an off note: I've never really got why Mexico never really reformed their state borders, seems like there's a lot of unnecessary states there imo

Ravenian Bean Space Program Successful in sending the First Bean to Orbit the Earth

Wholesome.

BN and other repliers: The political boundaries, coastlines, and especially the names are a bit dodgy, but I hope to improve upon in the basic map. In terms of the atlas map that I want to continue but only have completed the Fulmarven part, the map border and legend are pretty professional. It's a bit of a mess, particularly if you happen to download the map and open the layers on Inkscape or Illustrator or whatnot.
