> I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Steve Vai - Fuck Yourself

Fuck yourself with a rubber hose
Stick it in your mouth and down your throat
Up your nose and in your heinie hole
I don't care where it goes
And it don't matter if you're straight or gay
You should fuck yourself anyway
