> I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Solntsa Roshcha --- *Postmodern Poyltheist*

"Christianity had brutally planted the poisoned blade in the healthy, quivering
flesh of all humanity; it had goaded a cold wave
of darkness with mystically brutal fury to dim the serene and festive exultation
of the dionysian spirit of our pagan ancestors."
-Renzo Novatore, *Verso il Nulla Creatore*
