I support peace in Israel and Palestine. The governments and people in power on all sides are an absolute disgrace, and their unwillingness to pursue peace is a disservice to the people they are meant to be serving. The status quo is not simply untenable; it is unquestionably unacceptable.

"Come & Get It" - Selena Gomez

Normally I try not to go off on "OMG POP CULTURE SUCKZ" rants, but this song really, *really* deserves one.
Because seriously, there is no quality in this music: not in sound, not in the lyrics, not even in the video. Just more garbage manufactured from Pop Music Inc. Honestly I expected something with at least *a little* more quality from Selena, but I've been disappointed.
And I won't even go into the cultural ignorance thing (with the whole bindi controversy and the fact that she's incorporated a style of music into her song from a culture she probably knows nothing about)...
sigh

Haven't tuned in to any pop music radio station for about four months, but when I did, the beat of the song was usually loud or catchy enough to overlook the lack of awe from the lyrics. This one, though, was surprisingly weak in seemingly every aspect, especially considering it was by Selena Gomez, whose songs prior to this one have held some redeemable quality, at least to me.

"It was a piece of shit but I enjoyed it. What more do you want?!"

Puncture - *Pipe Fitter*

I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.

Secret Chiefs 3-Sheburiel

Last night when I saw them live, the first set they played a lot of stuff from this album, which the concept of it was created by John Zorn. So it was the more jazzy-influenced Secret Chiefs 3. The 2nd set they played various things, 3 songs my dad heard from the previous night.
