Death - Cosmic Sea

My nearly two year old nephew doesn't like when Chuck "sings" but he goes crazy trying to dance to the guitar solos. Ends rather confused and dizzy.

All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
