"what I believe is like a box, and we're taking the energy of our thinking and putting into a box of beliefs, pretending that we're thinking...I've gone through most of my life not believing anything. Either I know or I don't know, or I think." - John Trudell

Gun control is, and always has been, a tool of white supremacy.

> I mean, we can actually create a mathematical definition for evolution in terms of the evolutionary algorithm and then write code to deal with abstract instances of evolution, which basically equates to mathematical proof that evolution works. All that remains is to show that biological systems replicate in such a way as to satisfy the minimal criteria required for evolution to apply to them, something which has already been adequately shown time and again. At this point, we've pretty much proven that not only can evolution happen, it pretty much must happen since it's basically impossible to prevent it from happening.
