Monkey 4780 was flying through the air with the greatest of ease, that awesome monkey on the flying trapeze. It lost its grip on that extremely long swing, and saw too late it forgot the netting.

Monkey 4779 listened to the Spetznaz voices from Call of Duty too much, and one day, when he paused the video, the voices continued to scream. He was killed by Spetznaz forces later that day.

Monkey 4762 got annoyed with all the star wars references, and decided to build his own death star to kill all the monkeys. Then Luke Skywalker came.
